Arts Access/School

This is an opportunity for classroom teachers (academic, special education, art teachers/specialists) and artists (in the arts disciplines of dance, drama, literary arts, music, storytelling, or visual arts) to work together to plan a full accessible hands-on arts project for a group as small as 25 students with and without disabilities, to much larger groups.

Student Traveling Exhibition

This art exhibit is available to schools, museums, businesses, libraries, and hospitals across the Commonwealth each year. Teachers are encouraged to submit their students' original artwork each fall in order to participate in the exhibition.

Side by Side @ School

The Side by Side program is designed to offer a creative outlet for students, reinforce positive self-image, and highlight the importance of arts education in the development of children and youth with disabilities. Additionally students have the opportunity to create alongside a professional artist and see their work exhibited in a gallery setting or perform at a public venue.

Arts Access/Community

The Arts Access Community program supports projects that might not fit other program guidelines but do fulfill the mission of Arts for All Kentucky. These may include festivals, camps, workshops, etc.

Professional Learning

Teaching Artist Mentoring

Arts for All Kentucky Roster Artists are a group of talented and skilled teaching artists who know how to adapt their art forms to include students with disabilities in their instruction. All new artists are mentored by experienced teaching artists on our Roster. The directory can be found on our website.

Universal Design for Learning

Universal Design for Learning (UDL) is a research-based set of principles that guide the design of learning by removing barriers for all learners. The arts naturally provide pathways to motivate students, different ways to present content and choices for expressing knowledge
